EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 3, line 4, the terminology "curvature of is" has been changed to -- curvature is--.

2. The following is an examiner's statement of reasons for allowance: The prior art does not teach a belt structure in the form of a ring, the belt having partitions, a section of the ring structure being connectable with an opposite side portion of the ring structure so as to make two corresponding partitions butt-join together, the butt-joined partitions and the link-belt form a space in which a rolling-element is rotatably retained.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
